

Specman Tutorial , Product Version 8.1

Installing the Specman 8.1 Tutorial

Use the procedure below to install the Specman 8.1 Tutorial. After you complete this procedure, you will be ready to start using the tutorial by following the instructions in the Specman Tutorial PDF file.

1. Download the tutorial tar file: [sn_8.1_tutorial.tar.gz](#)
2. Move the sn_8.1_tutorial.tar.gz file to the directory where you will install the tutorial.

For example, suppose you will install the tutorial in a directory named /cad/vrst/8.1.

```
mv sn_8.1_tutorial.tar.gz /cad/vrst/8.1
```

3. Change to the directory where you will install the tutorial.

```
cd /cad/vrst/8.1
```

4. Unzip and untar the sn_8.1_tutorial.tar.gz file.

```
gzip -d sn_8.1_tutorial.tar.gz  
tar xvf sn_8.1_tutorial.tar .
```

This installs the following tutorial files in /cad/vrst/8.1:

sn_8.1_tutorial.pdf -- The Tutorial in PDF format
sn_8.1_tutorial -- The directory that holds the tutorial files

5. Open sn_8.1_tutorial.pdf and follow the instructions to run the tutorial.

Note that Appendix A lists the files that appear in the sn_8.1_tutorial directory.
